

California Association of School Counselors, Inc.
Political and Social Justice Policy
Adopted 3/28/09

The California Association of School Counselors respects the personal values and beliefs of student clients and Association members. CASC does not endorse political candidates nor does it take positions on political issues (as they relate to Section A.1. *Responsibilities to Students*, subsection (c) of the American School Counselor Association's Ethical Standards for School Counselors) which might lead to distortion or lack of clarity as to this core ethical standard.
